ESTABLISH JUSTICE:

Governments exist to provide a means for the people to receive **JUSTICE** in both criminal and civil affairs.

Justice compensates those who were wronged by others and punishes criminals according to the rules of law.

Governments should discourage all forms of injustice and provide a sure and speedy resolution when injustices occur.

INSURE DOMESTIC TRAQUILITY:

Governments exist to promote tolerance, respect, and civility towards all.

Governments exist to protect the individual from forceful or violent attacks against their person, property, or rights.

PROVIDE FOR THE COMMON DEFENCE:

Governments exist to help the people repel forceful and violent attacks. Governments **PROVIDES FOR THE COMMON DEFENSE** by organizing, arming, disciplining, and calling forth the people to execute laws, suppress insurrection and repel invasion.

PROMOTE THE GENERAL WELFARE:

Governments exist to encourage the growth and advancement of the health, peace, morals, and safety of the people.

Governments **PROMOTE THE GENERAL WELFARE** by creating an environment free from obstructions and restrictions that hinder the health, peace morals, and safety of the people. Government regulations intended to promote the general welfare do more harm than good.

Governments should trust the people with these functions that are far too important for government to handle.

Governments should allow the people the freedom to seek those solutions that will best insure their health, peace, morals, and safety.

SECURE THE BLESSINGS OF LIBERTY:

Governments should guarantee freedom from all restraints except such as are justly imposed by law. Governments should secure life, liberty, and all personal freedom.
