Gun Rights Are Fundamental

THE SECOND AMENDMENT:

“A well regulated militia, being necessary to the security of a free state, the right of the people to keep and bear arms shall not be infringed”

The security of a free people depends upon the right of the people to keep and bear arms.

Only **Libertarians** recognize that the security of your liberty depends on supporting your rights to keep and bear arms **100%**.

CRIME AND GUNS:

Government lacks the ability and resources to protect you, your family, or your property from crimes.

Protecting your life, liberty, and property depends upon your right to keep and bear arms.

Guns are used 60 times more often to protect the lives of honest citizens than to shoot with criminal intent.

Gun Statistics

GUN SAFTY:

According to the National Safety Council a child under 20 is 1,450% more likely to die in a car accident than from a gun accident.

A recent study found that over a three year period 22 students were murdered by firearms. During the same period 45 (**twice as many**) football players died from football related injuries.

Accidental gun deaths among children have declined by over 50 % in 25 years, even though the population (and the gun stock) has continued to increase.

GUNS PREVENT CRIMES:

More than 416 women use guns to defending themselves against sexual abuse each day. That is a dozen times more often than rapists use guns in an attack. 2.5 million crimes are prevented each year by defensive gun use.
