TRUE CAUSES OF POVERTY

A FAILED SYSTEM:

Since the start of the "war on poverty" in 1965, the United States has spent more than \$5 trillion trying to ease the plight of the poor.

Big government's intervention in the economy, through measures such as minimum wage laws, actually creates more unemployment and poverty.

The welfare bureaucracy in America costs nearly \$160 billion each year.

America's social welfare system is a proven failure.

THE SHAMEFUL RESULTS:

The System has produced more poverty.

The system is unfair to everyone, especially the poor, who are trapped in a system that destroys their opportunity for themselves and hope for their children.

The system removes valuable assets and resources from the general national economy where they could be used to create real jobs and opportunities for the poor to improve their condition.

Welfare cannot be reformed: it should be ended.

REAL POVERTY SOLUTIONS

SHRINK GOVERNMENT:

Replace the **FAILED** government welfare system with a **PROVEN** system of private charity.

Cut government spending and taxes by at least 50% by moving most of the functions of government sector to the free-market sector.

Government regulatory agencies – including FDA, EPA, OSHA, FCC, and FTC – do far more harm than good, and greatly increase the cost of products and services.

Shrinking the size of government and government regulations will be economically beneficial to all, especially the poor.

ENCOURAGE CHARITY:

Allow family, church, community, or private charity to bridge the gap for individuals who are unable to fully support themselves and their families through the job market.

Give a dollar for dollar tax credit for every dollar given to private charity
